The purpose of a Level I Fieldwork experience is to provide an opportunity for exposure to occupational therapy intervention and programming or, in the cases where no OT services are currently being provided, exposure to potential growth areas for OT. We encourage as much "hands on" as possible and appropriate within each experience. It is expected that professional behaviors are upheld in all settings.

Thank you for your participation in our program and your assistance in the educational process of our occupational therapy students.

Please notify the Academic Clinical Coordinator immediately if this student is not performing to the facilities expectations for Level I Fieldwork.
